Company Profile

Introduction

Established in 1997, SINETIC Technologies Pte Ltd operates globally through various distribution, resellers and system integrators. With our highly dedicated team of engineers and technicians, SINETIC is dedicated to bring the most advanced Industrial Computer products and solutions in the marketplace to our valued customers globally.

All SINETIC products are designed and manufactured right down to detailed specifications required by our customers from various industries and for wide applications. SINETIC products have been proven effective in meeting the most demanding environments and out performs others in critical applications world-wide. It is this very quality that enables SINETIC to be able to partner with our customers to support them in their business growth.

The SINETIC Industrial Computer is widely used in the following applications and its related fields: Data acquisition, Petrochemical, Automation, Transportation, Military, Embedded, Server environment, analysing LAN/WAN and telecommunication signals. SINETIC's product ruggedness also allows it to function well in manufacturing facility, as well as in the medical field for diagnostics and in aerospace applications. All of this knowledge has allowed SINETIC to support our global partners with their OEM and ODM requirements as well. SINETIC with her Advanced Industrial Computer Technology is able to support any industry that require industrial PC products.

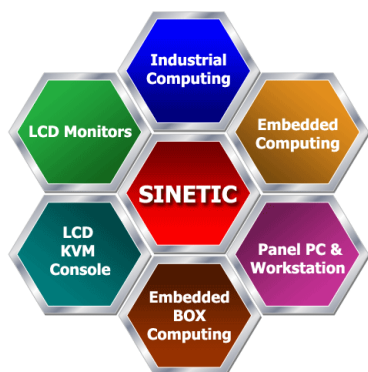

RoHS Directive

The RoHS Directive stands for "the restriction of the use of certain hazardous substances in electrical and electronic equipment". This Directive bans the placing on the EU market of new electrical and electronic equipment containing more than agreed levels of lead(Pb), cadmium(Cd), mercury(Hg), hexavalent chromium(Cr-VI), polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE) flame retardants.

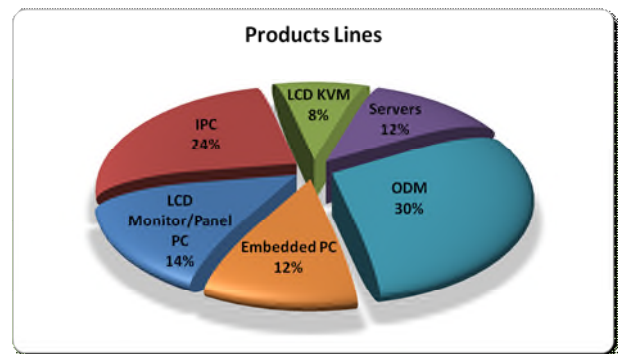

The directive comes into force across Europe on July 1st 2006, from this date on all new electronic and electrical equipment manufactured for resale within Europe must meet the guidelines as set out by the directive, however the directive does reference a list of categories and exemptions to be considered by producers (refer to your local RoHS legislation for details).

SINETIC offers our full product line in compliance with the RoHS requirements per Directive 2002/95/EC. Before placing an order we suggest you to check the RoHS product availability web page or contact our sales office to obtain the latest availability information; orders of RoHS products will be accepted and processed only if the requested delivery date is compatible with the scheduled release date.

Product Line share

Our Vertical Markets

SINETIC has been supplying her products to the various Industrial vertical markets. This includes Defence, Medical, Transportation, Education, Security, Marine, Oil & Gas, Food, Retail, RFID, Server Management, Utilities, Gaming.

Our Solution and Services

SINETIC is continually striving to assist our customers with their diversified demands and requirements. We take our strength in Preconfigured systems, customised System Integration and solution.

ODM/OEM Services

For special Project and designs, we provide ODM and OEM services to our customer all year round.

OEM

We supply preconfigured systems, custom systems and integration services to products designed, developed or marketed by SINETIC for resale under customer own brand name.

ODM

We manufacture and supply products and systems that are designed by our customers.

PANEL MOUNT MONITOR

I-View PM-084R3

Industrial 8.4" TFT Panel Mount LCD Monitor with optional Resistive Touch Screen or Anti Reflective Glass Protection

Introduction

I-View PM-084R3 Industrial Panel Mount TFT LCD Monitor with optional Resistive Touch screen or Anti- Reflective Glass Protection. I-View PM-084R3 offer two different types of input options for different applications.

I-View PM-084R3 is ideal for developing KIOSK, Industrial Test Equipment, Industrial Control systems, Hospital Display, Marine, Defence and ATMs
